

MICHAEL KERR

FULL-STACK WEB DEVELOPER

PHILOSOPHY

Innovation and creation are the center of my every action. Nothing makes me happier than working on completely unique ways to solve a problem, and the feeling of success I achieve after completing an unprecedented project is the driving force in my life.

SKILLS

Javascript

React

Redux

Node.js

PostgreSQL

SASS

Nodemailer

Redis

Git

Amazon Web Services

OTHER INTERESTS

In my free time, you can find me snowboarding, longboarding, working on my car, playing video games, or listening to music.

EXPERIENCE

DEVMOUNTAIN STUDENT TRACKER

devmountain-tracker.com

A web app used by staff and students at DevMountain to keep track of turned in assignments and overall course progress. Worked as part of a staff programming team to contribute multiple features and improvements to the app, including two new routes and data management pages.

AXXION LIFESTYLE

theaxxionlifestyle.com

A hybrid e-commerce/blog website allowing users to read articles, interact with each other in the comments, and make relevant purchases all in the same app. Built with React, Node.js, PostgreSQL, and Redux - with Stripe API as a payment processor. Hosted on a private Digital Ocean virtual machine.

FINDER

github.com/Olafaloofian/Finder

An app that connects recruiters and applicants through a simple, Tinder-like swiping interface. Uses React with MaterialUI, Node.js integrating Pusher ChatKit, and PostgreSQL. Tested with Jest/Enzyme, Cypress, and Postman.

CAREER HISTORY

DEVMOUNTAIN PHOENIX

Mentor

- Guided three separate groups of students through their education
- Created and graded coding assessments/challenges
- Answered and explained development-related questions
- Built apps/infrastructure for future DevMountain staff to use

EDUCATION

DEVMOUNTAIN

Full-Stack Web Development

- Focused on JavaScript, React, Node.js, and PostgreSQL
- Practiced reading and understanding complex documentation
- Learned how to design web apps both solo and as part of a group

BRIGHAM YOUNG UNIVERSITY

Microbiology

- Minored in Music
- Extensive laboratory experience
- Produced multiple scientific studies and projects
