

# MICHAEL KERR

ARTIST | ENGINEER

## PHILOSOPHY

There is a beautiful realm that exists within the convergence of art and engineering. Finding this intersection is the key to unlocking world-changing ideas and solutions.

## SKILLS

React / React Native

Python

Figma

Inkscape

SQL

CSS / Sass

Git

Affinity Photo

Javascript

Adobe XD

Amazon Web Services

## OTHER INTERESTS

In my free time, you can find me flying drones, longboarding, making beats, playing video games, or tinkering with cars.

1955 N Horne Apt 201  
Mesa, AZ 85203

## EXPERIENCE

### AXXION

[axxion.org](http://axxion.org)

A long-running personal project that seeks to push the boundaries of human perception through commerce, music, cinematography, and design. Our species is ready to take the next leap forward, and Axxion will be there to facilitate the jump when the time comes.

### PATIENT 31

[App Store](#) / [Google Play](#)

A social distancing app designed during the COVID-19 pandemic. Simple counting and history screens help keep track of how many people are interacted with on a daily basis. This was a humanity driven development project, released for free and constructed under donated time.

### UNIFIED VIDEO

[unifiedvideo.com](http://unifiedvideo.com)

A robust video platform intended for law enforcement, military, and security professional work. Sophisticated algorithms and networks enhance footage, visualize metadata, and stream files to remote locations. Applications extend to onboard chips and remote mobile server stacks.

## CAREER HISTORY

### PHX DEVS

**Co-Founder**

- Designed or reworked the code for a number of software projects
- Generated clients and leads through social media and promotions
- Built and donated products under humanity driven development
- Drew graphics, logos and assets for clients and internal use

### TERALOGICS

**Software Engineer**

- Programmed a complex server system that handles video files
- Maintained a network of connected nodes on distributed virtual machines
- Worked with a large team under agile/scrum process ideology
- Interacted with onsite representatives to design new features

### DEVMOUNTAIN PHOENIX

**Mentor / Instructor**

- Guided three separate groups of students through their education
- Created and graded coding assessments/challenges
- Answered and explained development-related questions
- Built apps/infrastructure for future DevMountain staff to use
